

APPLICATION FOR NEW CONNECTION/NOTICE OF ALTERATION

This form applies to properties supplied with electricity under the Remote Areas Energy Supplies scheme.

This form is to be used if you are seeking a new, or to alter an existing, electricity connection. If you are simply moving into a property that has an existing electricity connection, please complete the "Application for Supply of Electricity" form instead.

Completed forms are to be forwarded to Cowell Electric at Cowell Electric at PO Box 70, Cowell SA 5602, or by email to cowellelectric@cowellelectric.com.au, or by Fax to 08 8629 2115.

Applications will be assessed for the costs to provide a service point at the premises. Cowell Electric will negotiate the installation of the service point with the customer.

The costs to produce a service point are separate to the generation levy you may be charged by the Department for Energy and Mining (DEM). DEM will advise the generation levy on the basis of \$1,500 for each kVA in excess of 10kVA of connected capacity.

No work will commence until all fees and charges have been paid.

[By signing this application you agree to be bound by the conditions of supply published by the Government of South Australia which are available on request.](#)

TO BE COMPLETED BY THE CUSTOMER/BUILDER

What type of application is this (please tick one)	Install New Connection <input type="checkbox"/>	Notice of Alteration <input type="checkbox"/>
Person responsible for payment of service point costs to Cowell Electric and connection charges to DEM	Title: Full Name:	Address:
